### HISTORY

Fast and magnificent! This super tuned Tall Ship is the youngest of all Nordic Tall Ships, and not lacking in speed. Since the construction of the windjammer Christian Radich in 1937, the vessel was brought into use as a trainee ship for cadets and remained exactly that until 1998, with only the Second World War as interruption. During this period she was also successful as a race ship and won several prizes in different races. Since 1999 the Christian Radich is a passionate competitor at many sailing events, taking on trainees from all over the world.

In 1956 Christian Radich participated in the very first Tall Ships Races!
